DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because numerous different reference characters have been used to designate the same element, e.g. 28 corresponds to the skirt in Figs. 2, and 42 corresponds to the skirt in Fig. 3. *The applicant must amend the drawings and specification such that a single reference numeral designates a corresponding single element consistently throughout the drawings and the specification.*
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character “100” has been used to designate both a bag (Fig. 5) and a spike (Fig. 6A).
3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 106.
4. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

5. The disclosure is objected to because of the following informalities:

Art Unit: 3677

6. page 6, line 19, change "32" to --30--; and
7. Inconsistent element numbering as discussed above with respect to the drawings.
8. Appropriate correction is required.

Claim Objections

9. Claim 1 is objected to because of the following informalities:
10. claim 1, line 1, change "handles" to --a handle--;
11. claim 1, line 5, change "at" to --of--;
12. claim 1, line 6, change "the" to --an--; and
13. claim 1, line 12, change "the" to --an--.
14. Appropriate correction is required.

Claim Rejections - 35 USC § 112

15. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
16. In claim 1, lines 9-10, "the axis" lacks antecedent basis and is undefined.
17. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationship is between the spikes and the cover. The annular skirt and ring components of the cover must be claimed as the respective spikes are integral thereto. See claim 1 for sufficient structural cooperation.

Allowable Subject Matter

Art Unit: 3677

18. Claims 1 and 2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

19. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
